TEN NEW REGIMENTS

Orders For the Enlistment of Volunteers to Begin at Once.

COLONEL RICE APPOINTED

To Command the Twenty-Sixth—His War Record—Surgeon General Wyman Declares That There Is No Yellow Fever in the United States and Doesn't Look for Any.

Washington, July 6.—The order directing the enlistment of 10 new regiments of volunteer infantry was issued today. The order was drafted after a conference late yesterday afternoon between the president and Adjutant General Corbin and directs the recruiting officers to enlist men under the law passed March 2, 1899. These regiments are to be numbered from 26 to 35, thus retaining the continuity of the present infantry organization.

Major Edmund Rice, Third Infantry, was appointed colonel of the Twenty-sixth, the first selection made by the president. Colonel Rice was appointed to the army from Massachusetts as a captain of the Nineteenth Massachusetts volunteers in 1861 and served through the rebellion. He was breveted captain, major and lieutenant colonel for gallant services during the rebellion and at its close became a first lieutenant in the regular army. At the outbreak of the war with Spain he was serving as military attaché in Japan, but hastened home and accompanied General Miles' command to Porto Rico. While there he was appointed by the governor of Massachusetts as colonel of the Sixth Massachusetts infantry, which he continued to command until its muster out.

Experienced Engineers. New York, July 6.—Company E of the engineer corps left Willet's Point yesterday for Manila via San Francisco. The company is one of the best in the service, and has in it many men who have served 20 and 30 years. There are 100 men in the company.

YELLOW FEVER

Not a Case in the United States, Says the Surgeon General.

Washington, July 6.—"There is not a case of yellow fever in the United States." This statement was made by Surgeon General Wyman of the marine hospital service. "We are now well into the first week of July, and no case has yet been reported, although," added the doctor, "it quite frequently happens that reports are not made as soon as the disease appears."

"But your officers are on the watch?" "Yes, and we are all the more apt to speedily know of the existence of fever, because the people of the south are not so averse to announcing a suspicious case as they used to be. They recognize that it should be acknowledged quickly and measures taken to prevent a spread of the fever, as was done at McHenry."

"Have any ill effects resulted from the unusual amount of communication with Havana last winter and spring?" "No," was the reply, "none whatever. It was very wise to remove the volunteer troops from Cuba last March and April. When the troops landed in the United States every bit of the baggage and camp equipment was disinfected and the men were subjected to a detention of five days."

"Then there is apparently no danger to be feared from the homecoming of the troops?" "Not a bit. I am confident that not a single germ of yellow fever entered the United States through any of the belongings of these 25,000 men. And then," continued the doctor, "we not

A BURDEN LIFTED.

When a woman who has long suffered from female troubles, is again restored to health she feels that a tremendous burden has been lifted from her shoulders. Her figure rounds out again. Color comes to her cheeks, sparkle to her eyes. She feels much the same as when a girl, and if the neighbors wouldn't talk, the chances are she would go out and have a good romp, as in childhood's days. Doctor Pierce's Favorite Prescription lifts the burden of disease from women. It always inflammation and stops drains in the feminine organs. It strengthens the fragile supports that hold the internal organs in place. It corrects irregularities. It drives away the "blues" and banishes nervousness. The ordeal of child-bearing is rendered an occasion of no danger and little pain. It is the best medicine that Dr. R. V. Pierce, the long experienced specialist in women's diseases, ever made. The doctor will give free, fatherly advice to all women who write him at Buffalo, N. Y. No fee whatever is charged.

"I was a great sufferer for four years from displacement and ulceration," writes Mrs. Mary Becker, of Oile, Keokuk County, Iowa. "At the time I began using Dr. Pierce's Favorite Prescription I was able to sit up in bed. I took eight bottles and got to be a stout woman. I also gave Dr. Pierce's Golden Medical Discovery to my little daughter for quinsy and enlarged tonsils and it completely cured her. Any doubt I had was written to me, enclosing a stamp, and I will answer."

Honest dealers will not urge substitutes for Dr. Pierce's medicines. There are no other medicines in the world "just as good," although avaricious druggists will sometimes say so for the sake of the greater profit to be made upon the inferior articles.

only have complete control of the ports of this country, but we have a thorough grip on the situation in Cuba. Every piece of baggage is inspected and labeled before it leaves the island and, if necessary, is promptly disinfected. At San Francisco we have a dismantled ship, which is equipped with every appliance necessary for killing fever germs. We are not only protecting this country from Santiago, but all the cities of Cuba as well, so the disease cannot spread."

"Is there any yellow fever in Havana now?" "Not a case."

"I do not even look for any sporadic cases in this country," Dr. Wyman said in closing the interview. "They may occur, but we think we have taken every precaution to prevent the appearance of the disease. At any rate we can most assuredly predict that there will be no general epidemic."

Surgeon Stationed in Mexico City. Washington, July 6.—In order to make more effective the quarantine against the introduction of yellow fever from Vera Cruz and other infected Mexican cities, the surgeon general of the marine hospital service has located Assistant Surgeon L. E. Cofer at the City of Mexico. He is instructed to watch the railway travel to the United States, to give certificates to passengers and to superintend disinfection when necessary. The reports to the surgeon general indicate a decrease of the fever at Vera Cruz.

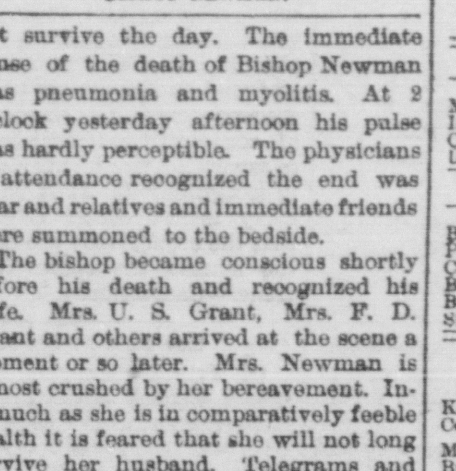

Nominate a State Ticket. Louisville, July 6.—The Social Labor party yesterday nominated state and city tickets for the fall campaign. On the state ticket are Albert Schmutz, Louisville, for governor; James Delaney, Newport, for treasurer; W. S. Palmer, Newport, for superintendent of public instruction; James O'Hearn, Louisville, for commissioner of agriculture.

NEWMAN IS DEAD

Death of the Noted Bishop at Saratoga, N. Y.

Saratoga, July 6.—Bishop John P. Newman of the Methodist Episcopal church of San Francisco, who died yesterday afternoon, was born in New York state in 1826, and entered the ministry at the age of 23.

Bishop Newman had been in failing health for a year, but it was only a week ago his condition alarmed his friends. Since July 3 he had been sinking rapidly, and yesterday his physicians announced that in all probability he would

not survive the day. The immediate cause of the death of Bishop Newman was pneumonia and myelitis. At 2 o'clock yesterday afternoon his pulse was hardly perceptible. The physicians in attendance recognized the end was near and relatives and immediate friends were summoned to the bedside.

The bishop became conscious shortly before his death and recognized his wife. Mrs. U. S. Grant, Mrs. F. D. Grant and others arrived at the scene a moment or so later. Mrs. Newman is almost crushed by her bereavement. Inasmuch as she is comparatively feeble health it is feared that she will not long survive her husband. Telegrams and cablegrams are being received from all quarters expressing sympathy. A dispatch from Bishop Randolph Foster at Roxbury, Mass., announces that he will reach Saratoga today and complete arrangements for the funeral. It will take place at the First Methodist Episcopal church, this city, Saturday afternoon. Besides immediate relatives of the Newman family, Mrs. U. S. Grant, Mrs. F. D. Grant and other ladies are in constant attendance at the bishop's cottage and will remain there until the funeral Saturday and probably later.

WIRE FLASHES

Con O'Leary, a well known pugilist, is dead at Milwaukee from injuries received in a saloon row. A Ponca (Porto Rico) dispatch says the Fourth was celebrated there by distributing food to the poor. Lieutenant Colonel Henry Wagner, Fourth cavalry, has been retired, having reached the age of 62 years. United States Ambassador Choate gave a grand dinner last night in commemoration of the Fourth. Archbishop Ireland was among the guests. Russia has announced she will immediately subsidize a line of fast ships to transport poultry, game and fresh meats from Russia to England. Governor Atkins of West Virginia has appointed delegates to the antitrust conference at Chicago and has signified his intention of being present in person. The 18th annual session of American agricultural colleges and experimental stations is in session at San Francisco. Nearly every state in the Union is represented. Mayor Jones of Toledo denies the published statement that he is not ready to be an independent candidate for governor of Ohio. He says if the people want him he is ready to serve them. Judge Colt of the United States court at Boston, has rendered a decision that the word "Wheeling" or "Wheeling stogie" cannot be used on goods manufactured in any place but Wheeling, W. Va.

THE CLOVER LEAF

Judge Taft's Orders Sustained by the Federal Court of Appeals. Cincinnati, July 6.—Before adjourning for the summer, the United States circuit court of appeals yesterday, in addition to sustaining Judge Taft's former orders regarding the mortgages of the Clover Leaf railway, modified the order in the case of Charles Hamilton against that railway so as to permit preferred stockholders to purchase the road subject to a lien of the present creditors or of such as may be so constituted in the suit of Stout and Purdy.

In the case of the Illinois Central railway against Reeve Jones, for damages, the lower court's decision was affirmed.

Hoosiers Promoted. Washington, July 6.—Mrs. Florence G. Scott of Indiana has been reinstated to a \$600 place, and Miss Annie T. Graves to an \$840 position, both in the office of the auditor for the war department. The following Hoosiers have been promoted in the treasury department: Charles E. W. Brown, \$600 to \$720; D. H. Fenton, \$1,800 to \$2,400; William Heffron, \$720 to \$840.

PROVIDING FOR GOMEZ

Cubans Will Not Consent to His Leaving the Island. Havana, July 6.—Thirty-two district clubs of the Cuban National party have held meetings and decided to oppose even the temporary withdrawal of General Maximo Gomez from the island. A commission has been appointed to visit all parts of Cuba and to collect subscriptions to a fund for building Gomez a home and furnishing him with money enough for the rest of his life. This decision is universally popular. In the opinion of all Cubans, even his political opponents, he deserves such recognition after his long service and self-sacrifice in behalf of the Cuban cause. One politician, who is violently opposed to him, said:

"I believe this would be the best method of removing Gomez from the political field, as it would satisfy his vanity and desire for distinction. I would willingly contribute \$500 to the fund if I could be convinced that he would not interfere again in Cuban affairs, as I consider him the chief disturbing element."

New Papal Ablegate. Montreal, July 6.—Cardinal Rampolla has announced to Archbishop Broche that the new papal ablegate, who will reside permanently in Canada and be the direct representative of the holy see there, will be Mgr. Falconio, titular archbishop of Acerenza and Matera.

Mr. White warmly repudiated the supposition that the Americans were animated by selfish considerations. They were eminently practical, he said, but not less pre-eminently devoted to great ideals. But the question he was urging upon the delegates, he asserted, was one of right, justice and progress for the whole world and this all Americans felt deeply. Nor could the acceptance of the American idea injure any nation. On the contrary, it would strengthen all.

PEACE CONFERENCE

Americans Secure a Vote on Question of Private Property at Sea.

A STRONG PRESENTMENT

Of the Question Made by Ambassador White—The Subject to Be Considered at a Special Congress to Be Summoned Hereafter—Privateering of No Practical Benefit.

The Hague, July 6.—The American delegates scored a great success yesterday in obtaining from the peace conference an unanimous vote in favor of having the question of private property at sea in time of war dealt with at a special conference to be summoned hereafter. Much diplomatic management was necessary and many obstacles had to be surmounted before this result was reached.

When the second committee met yesterday Andrew D. White, head of the American delegation, broached the subject. The question of its admissibility under the conference mandate was discussed. No vote was taken, but an agreement was arrived at to allow the Americans to present their case later in the day.

Had a vote been taken immediately the Americans would doubtless have carried their point by a majority of one or two and to avoid this a resolution was prepared setting forth the importance of the question and recommending the summoning of a special conference. After the successive clause of the laws of war had been adopted, M. de Merens of the Russian delegation, moved a resolution to that effect. Mr. White seconded it and in the course of a clear and eloquent statement of the American case he said the United States government had accepted the invitation to participate in the conference with alacrity because of the opportunity it was expected the conference would afford for preaching the truth with regard to the immunity from capture of private property at sea. He admitted, however, that the United States government recognized it would be hopeless to expect any decisive result from this conference, owing to three causes: (1) Absence of instructions from powerful governments; (2) doubts as to the competence of the conference, and (3) the length of time necessary for a discussion of all the bearings of the case.

Mr. White frankly admitted the difficulties involved in deciding what constituted contraband of war, but insisted these supplied one of the best arguments for a full and prompt discussion. The suffering and losses which seizures entailed were immense, while the effect upon the ultimate result of war was almost nothing. Referring to the experience of the United States in the war of rebellion, he said only three confederate cruisers did anything of importance, but they captured 108 vessels, quadrupled the rate of insurance between America and Great Britain and caused the transfer of 500,000 tons of American shipping to British bottoms. The final result was the whole American marine was virtually swept out of existence.

"If that resulted in the operations of three poorly equipped little steamers," he said, "what would happen with the means at the disposal of the greater nations today? Yet everyone knows this privateering had not the slightest effect in ending, or even shortening, the war; nor would it have had any even if the losses had been 10 times greater. The only real effect is gained by warships in maintaining a blockade. Nowadays the transfer of goods by land is so general that interruption by sea, as a rule, does nothing to promote the ending of war, but that interruption may destroy accumulations of human wealth and skill, requiring a generation to make good, while the losses cannot be confined to belligerents alone, but must affect more or less directly the whole world."

Mr. White warmly repudiated the supposition that the Americans were animated by selfish considerations. They were eminently practical, he said, but not less pre-eminently devoted to great ideals. But the question he was urging upon the delegates, he asserted, was one of right, justice and progress for the whole world and this all Americans felt deeply. Nor could the acceptance of the American idea injure any nation. On the contrary, it would strengthen all.

Opposes the Plan. Berlin, July 6.—The National Zeitung, commenting upon the reported tendency of the Samoan commission to appoint an administrator for Samoa who would not be subject to any of the three powers, opposes the plan, pointing out that a similar experiment in the case of the chief justice was a failure.

National Justice For China.

London, July 6.—At a meeting of the committee of the national institute for China, Rev. Gilbert Reed, the American clergyman, read a letter from the Marquis of Salisbury expressing the government's sympathy with the scheme to open such an institute at Peking, and the committee decided to appeal for voluntary contributions to further the object in view.

The two horses he was driving were also killed.

Ex-Collector Welbourn's Case.

San Francisco, July 6.—The recent disagreement of the jury in the case of O. M. Welbourn, formerly collector of internal revenue for this port, charged with fraud and embezzlement, has convinced the department of justice that a conviction is impossible and District Attorney Combs has written the attorney general at Washington, recommending the case be nolle prossed. On the first trial Welbourn was acquitted, but further indictments being recorded against him, a second trial was called for.

Cancer Science. London, July 6.—The Cancer society has commissioned Dr. A. E. Duffy to proceed to the United States to collect data, to investigate the operations of the Buffalo laboratory and to offer a prize of \$10 for the best original essay on cancer science.

200 LIVES

Lost in the Raging Floods Around Sealey, Tex. Fort Worth, Tex., July 6.—A telephone message from Deputy Sheriff Swenert of Calvert, says fully 200 lives have been lost by flood within a radius of 30 miles of Sealey. Nearly 100 were drowned in the vicinity of "The Mound," a small piece of high land near Old San Philip, to which hundreds of negroes fled from the Brazos bottoms, taking their horses and cattle.

Wood Compressed by Water.

"Have you ever seen a bit of wood that you couldn't burn?" said an old sea captain to me the other day. "Why, lots," I replied, "the brier root, for instance—at least, if it's good—ironwood, too, and one or two others." "I don't mean those," he said. "But have you ever seen a lot of common deal that fire had no effect on?" He pulled from his pocket a morsel of what looked like white Norwegian deal and handed it to me. I was surprised at the weight. "Put it in the gas flame," he said.

I did so, but beyond a blackening of the surface there was no effect. "That bit of wood," went on the skipper, "was part of the gunwale of one of my boats. We were whaling in the South seas and harpooned a big right whale off the Cape of Good Hope. The creature sounded, the rope fouled and the boat was carried down. Probably it was taken half a mile or more below the surface. The whale rose again and was killed, and a portion of the boat was recovered from the line which still hung to it. It was the pressure of the water hardened it like that."

Believed to Have Been Effectuated in the Transvaal. Pretoria, South African Republic, July 6.—The special conference between President Kruger, the members of the cabinet, Fischer, a member of the executive council of the Orange Free State, who was the bearer of compromise suggestions from the Free State in the matter of the dispute between the Transvaal and Great Britain, and Hoffmeyer, the Afrikaner leader, has been practically concluded. It is believed the franchise proposals have been accepted and may be laid before the Volksraad immediately and that peace will be preserved.

Becker Trial

Defendant Accuses His Father-in-Law of the Murder of Mrs. Becker. Chicago, July 6.—August Becker, on trial for murdering his wife and boiling the body, was on the stand in his own behalf yesterday. He denied any part in the killing of his wife, who was, he claimed, beaten to death by George Suterlein, the father of Becker's second wife. Becker admitted assisting Suterlein to dispose of the body by boiling it. On cross examination he stuck to his story, but showed great irritation that it was deemed necessary to double his guard—it being feared that he would attack Assistant Prosecuting Attorney Pearson who was conducting the prosecution.

The prosecution then placed Suterlein on the stand. He denied any knowledge of the crime, saying he never heard of it until his son-in-law was arrested.

Fourth of July Casualties.

Chicago, July 6.—The Tribune's Fourth of July casualty list today includes returns from 250 cities and towns. The leading figures are: Dead, 83; injured, 1,730; fire losses, \$283,070; injured by cannon crackers, 781; injured by powder explosions, 257; injured by boy cannon, 259; hit by stray bullets, 60. All these accidents are due to the celebration of July 4.

Address a Letter to McKinley.

Chicago, July 6.—The Chronicle today says: In a letter addressed to President McKinley 110 prominent Chicago citizens declare the chief executive has violated a solemn pledge in his recent civil service order. McKinley's record is compared with that of Cleveland and others of his predecessors and he is earnestly besought to revise the order at once.

JERRY SIMPSON is credited with saying to his fellow citizens of Kansas that they might as well discuss a last year's bird's nest as to discuss silver at 16 to 1 this year. Bryan's pet theory is getting a good many hard blows lately, but none of them are as severe as the plain fact that business is better despite the fact that the gold standard is still in high favor.

The first number of the Indiana School Journal under the new management is out and looks like a new one so radical are the changes. Everything from the cover to the railroad advertisements has been changed, and the changes are improvements. The number is an exceptionally good one and will commend itself to the educators of the state. It is evident that the Journal under the management of Prof. Geeting will continue to be one of the best educational periodicals published.

The Banner suggests that the Democrat overlooked some good men when it named over the Jackson county democratic lawyers who would make good circuit judges. It mentions D. A. Kochenour and Capt. B. E. Long. But even then the list is not complete. Nothing has been said about any of the democratic lawyers in Seymour but Messrs. Bransman and Barnes in connection with the judgeship. What is the matter with Wood, Munden and Wesner? Let none of the boys be overlooked when naming "available."

The North Vernon Sun, John Overmyer's organ, says some republican paper in the Fourth District has proposed a man for the democrats to nominate for congress who is a republican. Certainly he don't mean to intimate by that that Overmyer is a republican because he used to be. That don't count with Overmyer. No trouble for him to change his belief. Why he used to be a National bank president but he resigned to make a race for congress and now if you say anything about him as a banker his friends think you are making fun. He is a statesman now and a candidate for congress.

A LOVER'S FAREWELL.

Goodbye forever, my darling,
Dear to me even now,
Though I give you back your promise
And release you from your vow.
I have learned that the love I sought for
Had been given away before,
And I know that love in your nature
Is "love forever more."

Yet I wish you had not answered
In words so tender and fair,
For I could have borne it better,
Though it had been hard to bear.
If you had but told me truly
That your heart was given for aye,
I should not have known the sorrow
That crushes my heart today.

Yet, why should I weakly blame you
For the thoughts in my bosom hid?
'Twas my own fond heart that led me
To love you as I did.
And now I must hide my sorrow,
As I hid my hope before,
And put it away in silence—
To be spoken of no more.

For since I know I possess not
The love that had been such prize,
I wait till my idol crumbles
To ashes before my eyes.

No! Rather farewell forever,
And long may the lowliest shine
On the fairer part you have chosen—
It will beam no more on mine.

Better if death had robbed me,
For then I could love you still.
Your memory would have nerved me
To work with a stronger will.

Now I cry dream but a sorrow,
And my heart hath a sense of shame,
Remembering the empty promise
And the love that was only a name.

Remembering the flowers of joy
That brought a fruition of pain,
And the bliss that I held for an hour
I held it and lost it again.

I embarked my soul's best treasure
To drift on a boundless sea;
I have gathered life's fairest blossoms—
There will come no fruit to me.

A SOLEMN OCCASION.

The Only Interview Buchanan Had With His Vice President.

Vice President Stevenson used to tell a story which John C. Breckinridge had told him to illustrate the traditional relations between the president and the man whose principle business it is to wait for the possible death of the president. In order that he may take the president's chair.

Breckinridge said that Buchanan never consulted him about any important matter, although as a Kentuckian, having the confidence of most of the southern leaders, he felt that his advice might at times have been valuable to the president. In the early fall of 1860, when Buchanan's term was nearing an end, amid the gathering clouds of war, Vice President Breckinridge received an urgent summons to the White House. He responded at once, thinking that at last the president wanted his advice on the momentous questions then pending. When he arrived he was shown into the president's room, and Mr. Buchanan, who was alone, called his private secretary and instructed him to see that they were not disturbed by anybody during the important conference which was to follow.

When the private secretary had withdrawn, the president unlocked the private drawer in his desk, took out a manuscript, sat down with great solemnity, and said to Vice President Breckinridge, in his most impressive manner, "I want to read you the draft of my Thanksgiving day proclamation and to get your opinion of it."

The vice president controlled his facial muscles, listened respectfully and seriously made some complimentary remarks about the important document, and, with his customary courtesy, bowed and smiled his way out from the only interview to which he was ever invited by President Buchanan.—Boston Herald.

Kansas Husbands.

A woman takes great consolation in thinking that some day when she is laid in the cold, cold ground her husband will wish he had her back to tell her how sorry he is that he treated her so mean. She imagines him weeping over the sod and wishing he could see her, if only for a moment, to ask her forgiveness. But he will not appear in such a scene. On the contrary, he will probably be chasing after some other woman.—Acheson Globe.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare Bros., Newcastle, Ohio. "After taking two or three doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy I was completely relieved and in a few hours was able to resume my work in the store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." For sale by C. W. Milhous.

Coughed 25 Years.

I suffered for 25 years with a cough and spent hundreds of dollars with doctors and for medicine to no avail until used Dr. Bell's Pine-Tar-Honey. The remedy makes weak lungs strong. It has not a life. —J. B. Grantburg

OUR JAWS NEED EXERCISE.

Lack of Mastication Causes Dyspepsia and Teeth Troubles.

Mastication is rapidly becoming a lost art, and, although we have become hardened to the fact that three-fourths of the dyspepsia is due to this cause, it is a surprise to us to know that the early decay of the teeth and diseases of the gums are occasioned by this same lack of masticatory exercise.

A disease of the gums, called Rigg's disease, which is every day becoming more common, is caused almost entirely by the want of proper mastication. Twenty-five years ago this trouble was not considered of any importance by the dentist on account of its rare occurrence.

Today it is given more care than the decay of the teeth, as he is frequently consulted by patients who have a full set of natural teeth which are quite loose in the jaw. Aside from this they are sound and healthy, and after a certain development in the disease nothing can be done to help them.

By lack of exercise the blood which should nourish both the bones and the gums is not carried to the part, and the blood current sufficient material to the teeth; hence the enamel formed is defective, and early decay results. Frequently, too, the mechanical development of the jaw is arrested by this same want of motion.

Most of the food among the better class of people today is cooked so as to require very little mastication, and the consequence is that the muscles have become flabby, the jaws slender and the processes for the attachment of the muscles almost obliterated.—Boston Globe.

Obedience of Orders.

A naval commander in the reign of Queen Anne was ordered to cruise with a squadron within certain limits on the coast of Spain. Having received information that a Spanish fleet was in Vigo beyond his limits, he resolved to risk his personal responsibility for the good of his country. He accordingly attacked and defeated the Spanish fleet with uncommon gallantry. When he joined the admiral under whom he served, he was ordered under arrest, and was asked, if he did not know that by the articles of war he was liable to be shot for disobedience of orders.

He replied with great composure that he was very sensible that he was, but added, "The man who is afraid to risk his life in any way when the good of his country requires it is unworthy of a command in her majesty's service."—Nuggets.

He Was Fond of Hot Potatoes.

A certain learned professor, not unknown to fame, had many little eccentricities. One of these, innocent enough in its way, was provocative of much good natured banter from his friends. He was abnormally fond of those hot potatoes which one sees every day retailed by coppers in the streets.

On many occasions he had been seen to patronize the "all hot" merchant at the corner of the street where he lived. The vendor was a business man, and the professor's open air lectures, dealing with the health giving properties of a baked potato, never wearing him.

One morning, however, the "all hot" man was ill, and his deputy took charge of the business for a day. When the professor arrived, and, having invested his penny, continued his lecture as usual, his audience evidently entertained grave doubts as to his sanity.

"Perhaps you are not aware of it, my good man," said the professor, with his mouth full, "but it would take me many years to enumerate the benefits derived from the modest potato. Look, now. I grasp this one in my hand, so. My fingers were rendered numb and useless by the cold. The grateful heat from the potato is communicated to the digits, creating a healthful glow, and bringing back the wandering senses."

"You don't say so!" interrupted the street merchant. "Look 'ere guv'nor, why don't yer try one in yer 'at'?"

The professor now deals elsewhere.—Pearson's Weekly.

Spending Money.

It is an excellent thing to give children as soon as they arrive at about 12 years, or even before, a little allowance for spending money and an account book. Show them how to keep an account of small expenditures and make it a condition that they do so if they wish to receive their allowance. There is no instruction more necessary to children than instruction in the wise management of money. Children should be taught early what true economy is and to exercise their judgment—not their fancy—in making purchases. A little instruction now, and experience if needed, of the genuine discomforts of extravagance may save them from much suffering after years.—New York Ledger.

"In The Blues"

Is a common saying of a person who exhibits low spirits, nerveless action and a failure to enjoy even the most cheery surroundings. Nine times out of ten this condition is accounted for by poor digestion, which affects the mind and nervous system, besides enfeebling the body.

Pabst Malt Extract
The Best Tonic

is a complete remedy for the 'blues' and a promoter of good health and good cheer, being a pure, nourishing, concentrated food of easy digestion and soothing action.

I prescribe your "Best" Tonic in all cases where a pure and reliable malt extract is indicated. It has given me the best satisfaction. DR. W. B. PAYNE, Covington, Va.

AUTHORS' MANUSCRIPTS.

Not Necessary For Editors to Read Them From Beginning to End.

Once more the tale goes round of the author who sent a story to three journals and had it returned by every one without having been read. He knew it because he had pasted two of the leaves together. Very likely. We do not think of reading through a half or a quarter of the articles that are sent to us. It often does not take half a minute to discard what one knows he doesn't want. It is an old saying that one does not need to eat a whole joint to learn whether it is tainted.

It would be a revelation to some of these writers to see how fast an experienced and conscientious editor can, at times, go through a big pile of essays, stories or poems. The title is often enough, and he would say, "We don't want an article on that subject." The next article begins with a page or two of commonplace introduction, and that is thrown aside in half a minute's inspection without turning more than the next page. The next begins with a platitudinous "We can't print that stuff."

The first verse of this next poem has false meter and is tossed aside. The next begins in schoolgirl style, with "dove" and "love," it is not read through. Of the next the editor reads ten lines. It is simply a dull description of a stream in a forest—not wanted. The next poem begins in a fresh way, seems to be constructed according to the rules, is pretty good. It is put one side to see if other better poems will crowd it out. The next is a story. The first page is promising, but the second shows a coarse strain, and the reading stops there.

Ten articles are decided upon, and with sufficient good judgment, in ten minutes, for a minute to a manuscript is often twice as much time as it needs. It does not take that long for a dealer to stick an iron skewer in a smoked ham, draw it out and smell of it. Not one article in a dozen perhaps needs to be read through.—New York Independent.

INSECTS AS HOODOOS.

They Keep Settlers Away From Many Parts of the World.

Nothing could more strikingly illustrate the importance of small things than the large role which is now attributed to the mosquito in the etiology of some of the most serious and widespread diseases to which the human race is subject. It is truly said that what prevents the successful colonization of many tropical countries and what throws the greatest obstacle in the way of civilization and of good government in vast regions of central Africa is not climate, nor distance from home and not unfriendliness on the part of the natives. The obstacle is malaria, and now we find that the prevalence of malaria, so far as man is concerned, depends on the mosquito, and that this pestilent little insect, in addition to irritating and annoying, is the means by which the poison of malaria is propagated and distributed.

For years back bacteriologists have known the important part played by birds in the scattering of seed and of insects in the distribution of the pollen of plants, and it seems not unlikely that pathologists will have to recognize in a much larger degree than has till lately been done the large part taken by the subordinate forms of life by which we are surrounded—our cattle, our horses, our dogs and cats, our flies, our mosquitoes, and perhaps even our fleas—in distributing disease from man to man, and, as is stated in regard to the mosquito and malaria, in deciding whether the extension of our empire over great areas of the globe's surface shall be possible or not.—Hospital.

Pernambuco, when translated into English, means the "mouth of hell." The allusion is to the tempestuous surf that continually renders the neighborhood dangerous to the sailor.

The Greeks, when traveling, wore hats in winter of cloth or felt; in summer of plaited straw, with broad brims.

Punctuation.

What a great difference in the meaning of a sentence a misplaced comma can make! Take the following, for example:

"James, my husband, is a very sick man."

"James, my husband, is a very sick man."

The following bit of perverse punctuation was perpetrated by an English composer. What the author meant to say can be ascribed by a rearrangement of the punctuation marks:

"Caesar entered on his head; his helmet on his feet; armed sandals upon his brow; there was a cloud in his right hand; his faithful sword in his eye; angry glares saying nothing, he said down."—Pittsburg Chronicle-Telegraph.

Guy Fawkes' Lantern.

It has been settled beyond a doubt that the identical lamp which Guy Fawkes carried in poking about in the cellar of the houses of parliament, when he intended to blow them up, is now in existence. This lantern is in the Ashmolean museum at Cambridge. Guy Fawkes was carrying this lantern when he was arrested. The history of the lantern has now been fully established and it must take its place among the most celebrated exhibits in the museum of the world.—London Mail.

Children's Sleep.

Growing children cannot too carefully be enjoined to get plenty of sleep. The boy or girl who has lessons to learn must waken early after a good night's rest, and this is insured only by punctuality in retiring. Eight o'clock is a good bedtime for all young people under 15 and should be insisted upon by parents.—Harper's Bazar.

Professor Bryce made a bad slip in his book on South Africa. He accuses the Boers of abusing the English by speaking of them usually as "rotter eggs," whereas the Transvaal phrase is "root neck," and applies to the British complexion.

CANNED GOODS.

The Most Flagrant and Extensive Kind of Adulteration Are Practiced.

Under one heading we may consider several groups of food stuffs, which, while different in composition, are alike in the form of adulteration which is resorted to. These groups include the varieties of canned vegetables, fruit butters, jellies, preserves and catchups. The forms of adulterations common to all of these consist in the use of coloring matter, of imperfect vegetables or fruits, of other fruits and vegetables than those called for or preservatives. In the case of canned vegetables there is an accidental adulteration from the ingredients of the can, such as lead and tin, and which may, as a rule, be attributed to a lack of care in canning.

In all of the groups mentioned the adulteration practiced is of the most flagrant and extensive kind. Catchups are made of skins and cores instead of the pure vegetables, then colored with a coal tar product and loaded with salicylic acid to prevent fermentation. Fruit butters are nothing but parings and scrapings of fruit to which glucose, starch and coloring have been added, with salicylic acid as a preservative. Jellies are made from glucose flavored with essential oils and colored, to which salicylic acid is added. Some fruit jellies marked as pure have never seen a trace of fruit. What is true of jellies is true of preserves. Put together refuse material, the cheapest sort of glucose, some coloring and salicylic acid, and you have the composition of some of the cheaper forms of preserves that are to be found on the shelves of some of our grocery stores. Of these coarser forms of adulterations it will be unnecessary to say even a word. They are universally recognized as unfit to be used, and every honest dealer is of the opinion that the sooner they are driven out of the market the better it will be for trade.—Sanitarian.

Her Foot In His Pocket.

Of Princess Pauline Borghese, she whose charms Canova is supposed to have immortalized in his Venus Victoria, Mr. Augustus J. C. Hare, in his "The Story of My Life," relates this anecdote, told him by Lady Ruthven: "She used, when at Rome, to go to 'la toilette des pieds' of Pauline Borghese. Regular invitations were issued for it. When the guests arrived, they found the princess, supremely lovely, with her beautiful little white feet exposed upon a velvet cushion. Then two or three maids came in and touched the feet with a sponge and dusted them with a little powder—'c'est la toilette des pieds.' The Duke of Hamilton used to take up one of the little feet and put it inside his waistcoat 'like a little bird.'"

A Quick Witted Baptist.

One of the candidates for the state senate down in Jefferson county, Ala., was a prominent Baptist, and he expected his fellow churchmen to help push him along. The story goes that he was campaigning on a country beat and had the good fortune to fall in with a whole congregation of Baptists. Whether a prayer meeting had just been held or what the occasion of the gathering was is not known. About this time a light shower came up, and the candidate at once raised a large umbrella which he was carrying.

"You are not afraid of this little shower, are you, Brother?" remarked one good Baptist, standing near.

"Not at all," responded the quick witted candidate, "but you know I am opposed to all forms of 'sprinkling.'"

He carried that beat solidly.—New Orleans Times-Democrat.

Inquiring for a Dead Man's Relatives.

Postmaster Wilhelm has received a letter from DeWitt, Illinois, inquiring if there are residents of Seymour by the name of Elliott or "Eluit." The letter goes on to state that last March a man named "Morton Eluit" was shot and killed in Pulaski county, Missouri, by a man by the name of "Semson" or "Sampson." Eluit he says was a stranger there but his partner said he was from Seymour, Indiana, and a letter was found in his pocket which seems to have been from his grandmother and read as if he had been away two years. The writer of the letter to Postmaster Wilhelm asks that if any of "Eluit's" relatives are in Seymour to write him, "Dan Hogan, Box 214, DeWitt, Illinois," as he believes he can do them some good. Hogan also writes that the dead man went by the name of "Morton Burton" also. He adds that "Semson's" trial comes off in September.

NOTABLE AMUSEMENT EVENT

Solomon, His Temple and the Queen of Sheba.

John Robinson's ever popular and ever welcome shows comes to us this year with such important accessions and augmentations as to overshadow all contemporary amusement ventures. They have not only materially strengthened their ring and hippodrome performances, and largely added to their already vast menagerie, but are producing an astonishing new feature, which can but commend itself to all classes of patrons. We allude to the grand biblical spectacle of "Solomon, his temple and the Queen of Sheba." Unerring in historical accuracy, faithful in scenic delineation, realistic in depiction of incidents and events, impressively grand in pageant effects, magnificent in costumes and appointments, entrancing in musical features, bewitching in beautiful ballets and exciting in games and chariot races, this unprecedentedly sublime spectacle will commend itself to every visitor. This show will exhibit at Seymour, Saturday, July 15.

A Growing List.

Dixon M. Hays, who is mustering the subscription list for the Weekly Republican came in last night with sixteen new names, the result of two days' work. The growth of this list has been especially gratifying since the paper was enlarged to eight pages. The regular issue of the Weekly is three hundred copies larger than it was three months ago, and no small amount of the credit is due to Mr. Hays' energy in the field.

Something is Wrong.

If you are not getting results from your advertising something is wrong. Either your advertising is not suitable to the season or you may not be in the proper mediums. Find out where the trouble lies and remove it without delay. Any article that has merit when properly advertised must bring returns, and the fact that your advertising is not paying is a sure indication that something is amiss.—The Advisor, New York City.

His Life was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he said: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung troubles. Regular size 50 cents and \$1. Trial bottles free at W. F. Peter's drug store. Every bottle guaranteed.

Fees from Insurance Companies.

Yesterday State Auditor Hart turned over the fees from his office since Jan. 26 when he took possession. During that time the insurance companies have paid in a total of \$108,079 distributed as follows: The fire insurance taxes were \$19,907, foreign fire insurance companies \$7,832, life insurance companies \$46,784, miscellaneous companies \$3,522, total taxes, \$78,045. Fees for licenses amounted to \$30,033, making the total receipts from the insurance department \$108,079.

Uphouse Farm Sold.

John Uphouse has sold his farm of 43 acres two miles south of the city to Hon. Louis Schneck for \$5,000. He takes in exchange city property worth \$1,500 and gets \$3,500 cash. Mr. Uphouse will move his family in a few days over the store.

A TERRIFIC STORM

CLOVER LEAF RAILROAD

Judge Taft's Orders Regarding Mort-
gages Sustained by the United States
Court of Appeals—Safe Blowers at
Work at Rockville—State Pharma-
ceutical Board to Meet.

Montpelier, Ind., July 6.—This place
was visited by a severe storm yesterday
which did much damage in the east end
of town. The cloud was white and
funnel-shaped, and every place it struck
it tore buildings to pieces and twisted
off large trees. It came with terrific
speed across a wheat field, carrying
sheaves of wheat and large limbs off of
trees. It struck the city on the south
and went directly north, passing with-
in one block of the business portion.

Many outhouses were demolished and
the roofs of houses and barns were torn
off. At High street it turned over a
large barn and the flying timber broke
many windows. Chimneys were blown
down and chairs were picked off
of verandas and hurled into the air for
several hundred feet. No one was hurt.
The storm was accompanied by a heavy
rain. For a strip of 60 feet wide it
picked up whole shocks of wheat and
carried them to the river.

STILL UNEXPLAINED
Pearl Evans' Sudden Disappearance
Unsolved—Detectives at Work.

Greentown, Ind., July 6.—The sud-
den disappearance of Pearl Evans is
still shrouded in mystery. He came to
town two weeks ago last Saturday,
in his working clothes, with only
25 cents in his pocket, which his
father had given him for the
purpose of having his hair cut. In-
vestigation shows that he did not visit any
of the barbershops. He was last seen
on the streets starting toward home.
Here all clues stop, and he disappeared
as completely as if the earth had swal-
lowed him. His parents are almost dis-
tracted, and fear that he has been mur-
dered and his body secreted in some out-
of the way place. Detectives have been
employed to search for him. The re-
port that he left for fear he would be
called before the grand jury is without
foundation. Had he left intentionally,
it is thought, he would have worn his
best clothes and have taken the money
which he had been hoarding up for several
years.

POWDER EXPLOSION
Two Boys and a Woman Injured at
Marion.

Marion, Ind., July 6.—Charles and
Joseph Workman, 12 and 14 years old
respectively, were engaged in firing a
gun cannon, when a spark fell into a
glass fruit jar containing nearly a pound
of powder, causing an explosion. Small
pieces of glass were driven into the
bodies of the boys, and doctors worked
with them for hours while extracting
the particles. The physicians think
they will both recover. Mary Cary
Lake, who was sitting a short distance
from the boys, was hurled 20 feet by the
concussion, and was seriously cut and
bruised.

SAFE BLOWERS
**Attempted Robbery Results In Burn-
ing a Firm's Books.**

Rockville, Ind., July 6.—Burglars
forced the safe in the office of Messrs.
McMurry & Buehler, dry goods mer-
chants, and the safe set fire to the books
in the office, which, but for timely dis-
covery, might have resulted in a disas-
trous fire. It was put out by the bucket
brigade, the town having no fire protec-
tion. The burglars did not get inside
the safe. The awkwardness of the job
points to home talent.

Osteopaths.
Indianapolis, July 6.—The American
Association of Osteopathy is in session
in this city. About 100 delegates from
all parts of the United States are in at-
tendance. Numerous interesting papers
were read yesterday. A banquet was
given last evening at the Bates House.
This morning's session was given up to
routine business of the association.

State Pharmacist Board.
Indianapolis, July 6.—The state phar-
macy law having gone into effect July
1st, the pharmacy board will meet on the
13th inst., to consider applications of
pharmacists. It is understood that no
prosecutions against unregistered phar-
macists will be made until after all ap-
plicants have been examined.

THE FIRST BABY.

Its Coming is Looked Forward to
With Both Joy and Fear and its
Safe Arrival is Hailed With
Pride and Delight by All.

The arrival of the first baby in the
household is the happiest and most im-
portant event of married life. The young
wife who is to become a mother delights
to think of the happiness in store for her
when the little one shall nestle upon her
breast and latterly she shall hear it lisp
the sweet and holy name, "mother."

But her happy anticipation quickly van-
ishes when she realizes the terrible pain
and suffering through which she must
pass while bringing the little one into
the world. An indescribable fear of the
danger attendant upon the ordeal soon
disappears her joyfulness.

Thousands of women have learned
by experience that there is absolutely
no necessity for the sufferings which at-
tend child-birth; they know that by
the use of "Mother's Friend"—a scien-
tific liniment—for a few weeks before
the trying hour, expectant mothers can
so prepare themselves for the final
hour that the pain and suffering of the
dreaded event are entirely obviated and
it is safely passed through with com-
paratively little discomfort.

All women are interested, and es-
pecially expectant mothers who for the
first time have to undergo this trial, in
such a remedy; for they know the pain
and suffering, to say nothing of the dan-
ger, which is in store for them. "Mother's
Friend" is woman's greatest blessing,
for it takes her safely through the
severest ordeal of her life. Every woman
should be glad to read the little book
"Before Baby is Born," which contains
information of great value to all. It
will be sent free to any one who sends
their address to The Bradford Regu-
lator Co., Atlanta, Ga.

It Has a Razor Edge.
Advertising is the most useful of all
the tools of business, but it has a razor
edge, and the man who handles it care-
lessly is sure to wish he hadn't. The
more fact that a man advertises is by
no means an insurance of business suc-
cess. He must give constant, careful
thought to the subject. It is the only
part of his business which will never
run itself. You can get any other de-
partment in the business down to such
a system that it will require very little
thought, but the successful advertiser
must be always alert and must never
take his hand off of the advertising
rudder for an instant.—Bates.

Parsnip Complexion.
A majority of the ills afflicting peo-
ple today can be traced to kidney
trouble. It prevades all classes of so-
ciety, in all climates, regardless of age,
sex or condition.

The sallow, colorless-looking people
you often meet are afflicted with "kid-
ney complexion." Their kidneys are
turning to a parsnip color, so is their
complexion. They may suffer from
indigestion, bloating, sleeplessness,
uric acid, gravel, dropsy, rheumatism,
catarrh of the bladder, or irregular
heart. You may depend upon it, the
cause is weak, unhealthy kidneys.

Women as well as men are made
miserable with kidney and bladder
trouble and both need the same reme-
dy. Dr. Kilmer's Swamp-Root, the
great kidney, liver and bladder reme-
dy will build up and strengthen weak
and unhealthy kidneys, purify the
diseased, kidney-poisoned blood, clear
the complexion and soon help the suf-
ferer to better health.

The mild and the extraordinary
effect of Swamp-Root is soon realized.
It stands the highest for its wonderful
cures of the most distressing cases,
such as weak kidneys, catarrh of the
bladder, gravel, rheumatism and
Bright's Disease, which is the worst
form of kidney trouble. At druggists,
fifty cent and dollar sizes. You mail
have a sample bottle by mail free, or a
pamphlet telling all about it. Address

Persons troubled with diarrhoea
will be interested in the experience of
Mr. W. M. Bush, clerk of Hotel Dor-
rance, Providence, R. I. He says:
"For several years I have been almost
a constant sufferer from diarrhoea, the
frequent attacks completely prostrat-
ing me and rendering me unfit for my
duties at this hotel. About two years
ago a traveling salesman kindly gave
me a small bottle of Chamberlain's
Colic, Cholera and Diarrhoea Remedy.
Much to my surprise and delight its
and delight its effects were immediate.
Whenever I felt symptoms of the dis-
ease I fortified myself against the attack
with a few doses of this valuable reme-
dy. The result has been very satis-
factory and almost complete relief
from the affliction." For sale by C.

CELESTINE KING
NATURE'S CURE
No More Rheumatism.
For years my wife suffered from rheu-
matism. She tried many remedies, but got little
benefit, and we had about given up all hope
of relief when we heard of Celestine King,
and my wife began using it. This great medicine
has, apparently, driven all the poison out of
her system, and has certainly released her
from a life of pain. L. F. Cushing, North Ab-

Celestine King cures diseases of the Nerves,
Stomach, Liver and Kidneys. Sold by drug-
gists, 25c and 50c.

WINE OF CARDUI

HEALTHY OLD AGE.

LARUE, BENTON CO. ARK., Aug. 4.

I am 49 years old and have been suffering with
Change of Life. I had flooding spells so bad that
none thought I could live. My husband got me
Wine of Cardui and it saved my life. I am like
another person since taking it.

MRS. E. B. TOWNSEND.

It is the devout wish of nearly all people to live to a ripe old age.
None of us want to die young. This universal desire can be realized if
care be taken of the health in early and middle life. A little precaution then
will add many years to our existence. Death can be kept away a long
time. Happy, healthy old age will be the lot of the woman who promptly
corrects the ailments which afflict her sex. In youth, Wine of Cardui will
take the female child safely over the dividing line between girlhood and
womanhood. As a wife she needs it to help her through the trials of
pregnancy and childbirth with as little discomfort as possible. At the
Change of Life it will help her over the dangerous place that appears in
her pathway between 40 and 50. Then will come many years of truly
blissful existence. She will grow old slowly and gracefully. To the last
she will preserve that charm and beauty which are always characteristic
of perfectly healthy grandmothers.

RETURN LIMIT EXTENDED.
Seashore Excursion Tickets via Pennsylv-
ania Lines Good Fifteen Days Re-
turning.

The return limit on the low fare excursion
tickets to Atlantic City, Cape May, Ang-
les, Avalon, Holly Beach, Ocean City, Sea-
side City, Wildwood, New Jersey, Rehoboth,
Del., and Ocean City, Md., to be sold August
10th, from principal stations on the Pennsylv-
ania Lines will be fifteen days includ-
ing days of purchase. This is a longer limit than
that granted on similar tickets sold in pre-
vious seasons, and will be ample for a deli-
cious sojourn at the seaside. The extreme re-
turn limit will be August 24th, which will al-
low a week after returning home to prepare
for school and other duties which begin with
the opening of September.

The date of the excursion, August 10th, is
the most convenient for an outing. Business
is quiet at this season, crops are gathered,
and office, store and farm duties are not ex-
acting. The thermometer usually reaches
the highest point about this time. It will be
a pleasing diversion to spend week's vacation
in the invigorating ocean breeze and expe-
rience the unlimited pleasure at the command
of the summer idler by the sea.

The round trip rate from Seymour will be
25c. Tickets at this exceptional low rate fare
may be secured to either of the ten resorts
mentioned above, which are the most attrac-
tive along the Atlantic coast. For illustrated
descriptive matter about them apply to O. B.
